### Transport Equipment Industry

Hamamatsu is the birthplace of world-class manufacturers such as Suzuki, Honda, and Yamaha Motors. The city's transport equipment industry started out with the production of motorcycles, and then grew dramatically over the years with the production of a diverse range of products including not only automobiles but also agricultural equipment, motorboats, and outboard motors. Furthermore, an increasing number of parts manufacturers with diverse technologies have concentrated in Hamamatsu in order to develop globally competitive products, thereby fostering the foundation for competitive development of advanced quality.

### Musical Instrument Industry

Hamamatsu is the birthplace of Japan's musical instrument industry, with the very first Japan-made piano being manufactured in this city. Japan's finest world-class musical instrument manufacturers, including Yamaha, Kawai, and Roland, are headquartered in Hamamatsu, making the city home to a substantial industrial cluster of musical instrument and related industries. In addition to these renowned manufacturers, there are many small and medium-sized manufacturers and workshops which produce various musical instruments that continue to delight performers and music lovers around the world.
